Safety Data Sheet

according to Regulation (EC) No. 453/2010

Revision date: 11/10/2011

Supersedes: 30/11/2010

Version: 1.0

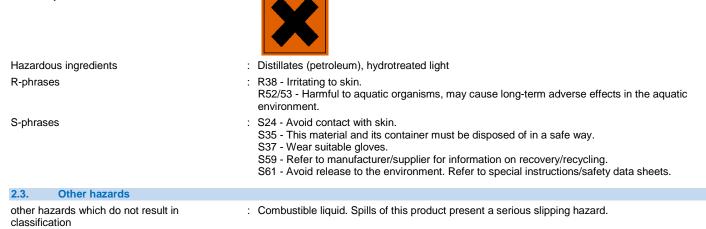

SECTION 1: Identification of the substance/mixture and of the company/undertaking **Product identifier** 1.1. Product form : Mixture : Quicksilver Premium Plus TC-W3 Two Cycle Engine Oil Trade name Product code 625075316; 92-801881; 92-858025Q01; 92-858026Q01; 92-858027Q01; 92-858028Q01; 92-858029Q01 Synonyms Two cycle engine oil Product group Trade product ÷ Relevant identified uses of the substance or mixture and uses advised against 1.2. 121 **Relevant identified uses** : Marine and Watercraft Applications Use of the substance/preparation 122 Uses advised against No additional information available 1.3. Details of the supplier of the safety data sheet Mercury Marine 41-71 Bessemer Drive Dandenong South Vic Australia 3175 +61 3 9791 5822 **Emergency telephone number** 1.4. Emergency number : Chemtrec Australia (Sydney) +(61) 290372994 (24 hour service) **SECTION 2: Hazards identification Classification of the substance or mixture** 2.1. Classification according to Regulation (EC) No. 1272/2008 [CLP] STOT SE 3 H336 Skin Irrit. 2 H315 Aquatic Chronic 3 H412 Full text of H-phrases: see section 16. Adverse physicochemical, human health and environmental effects Injection under the skin of pressurized hydrocarbons can cause severe, permanent tissue damage. In case of large spills the product may be hazardous to aquatic organisms due to possible formation of a film on the surface water which can diminish dissolved oxygen levels. Label elements 2.2. Labelling according to Regulation (EC) No. 1272/2008 [CLP] Hazard pictograms (CLP) GHS07 Signal word (CLP) : Warning H315 - Causes skin irritation Hazard statements (CLP) H336 - May cause drowsiness or dizziness H412 - Harmful to aquatic life with long lasting effects Precautionary statements (CLP) : P273 - Avoid release to the environment P271 - Use only outdoors or in a well-ventilated area P302+P352 - IF ON SKIN: Wash with plenty of soap and water P362 - Take off contaminated clothing and wash before reuse P501 - Dispose of contents/container to hazardous or special waste collection point. Labelling according to Directive 67/548/EEC or 1999/45/EC

Full text of R-, H- and EUH-phrases: see section 16.

| SECTION 4: First aid measures | |
|--|--|
| 4.1. Description of first aid measures | |
| First-aid measures after inhalation | If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. In case of breathing difficulties administer oxygen. Immediately get medical attention. Put victim at rest, cover with a blanket and keep warm. |
| First-aid measures after skin contact | : Contact burns from hot or very cold materials should be flooded with cool low pressure water for 15 minutes. After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of water and soap. Seek medical attention if ill effect or irritation develops. Discard contaminated leather articles. Wash contaminated clothing before reuse. If material is injected under the skin, seek medical attention immediately. |
| First-aid measures after eye contact | Rinse immediately and thoroughly, pulling the eyelids well away from the eye (15 minutes minimum). Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention if ill effect or irritation develops. |
| First-aid measures after ingestion | : Do not induce vomiting unless directed to do so by medical personnel. Do not give an unconscious person anything to drink. Seek medical attention if ill effect or irritation develops. |
| 4.2. Most important symptoms and effe | cts, both acute and delayed |
| Symptoms/injuries | This material or its emissions may cause damage to kidney and liver and/or aggravate existing disorders. |
| Symptoms/injuries after inhalation | : Inhalation of mists or vapours at elevated temperatures may cause respiratory irritation. |
| Symptoms/injuries after skin contact | : May cause slight temporary irritation. Effects of skin contact may include : redness. Effects of skin contact may include: irritation and burn feeling. Prolonged/repetitive skin contact may cause skin defattening or dermatitis. Injection under the skin of pressurized hydrocarbons can cause severe, permanent tissue damage. |

Safety Data Sheet

according to Regulation (EC) No. 453/2010

Symptoms/injuries after eye contact Symptoms/injuries after ingestion

eye contact May cause slight temporary irritation. Symptoms can include redness, pain, and tearing. ingestion On ingestion in large quantities : CNS depression. Symptoms of ingestion include drowsiness,

weakness, headache, dizziness, nausea, vomiting.

4.3. Indication of any immediate medical attention and special treatment needed

Injection under the skin of pressurized hydrocarbons can cause severe, permanent tissue damage.

| SECTION 5: Firefighting measures | | |
|---|--|--|
| 5.1. Extinguishing media | | |
| Suitable extinguishing media: | : For small fire : carbon dioxide (CO2), dry chemical powder, foam. Inert gas. Use caution when applying carbon dioxide in confined spaces. Carbon dioxide can displace oxygen. For large fire : Foam. Water fog. Use water spray/fog for cooling. | |
| Unsuitable extinguishing media | : Do not use a solid water stream as it may scatter and spread fire. Use caution when applying carbon dioxide in confined spaces. Carbon dioxide can displace oxygen. | |
| 5.2. Special hazards arising from the sul | bstance or mixture | |
| Fire hazard | : When heated above the flash point, releases vapours. Exposed to ignition source, vapours can burn in open / explode if confined. Mist or spray may burn at temperature below flash point. | |
| Explosion hazard | : Exposed to ignition source, vapours can burn in open / explode if confined. Risk of explosion if heated in a confined system. | |
| Reactivity | : Hazardous combustion products. Carbon dioxide. Carbon monoxide. hydrocarbons. Nitrogen oxides (NOx). Sulfur oxides. May release harmful fumes. | |
| 5.3. Advice for firefighters | | |
| Firefighting instructions | : Risk of explosion if heated under confinement. At or above flash point, vapours present may burn in open or explode if confined when mixed with air and exposed to ignition source. | |
| Protective equipment for firefighters | : In case of fire: Wear self-contained breathing apparatus. Wear proper protective equipment. Refer to section 8. | |

| SECI | ION 6: Accidental release mea | sures |
|----------|--------------------------------------|---|
| 6.1. | Personal precautions, protective ec | uipment and emergency procedures |
| 6.1.1. | For non-emergency personnel | |
| Protect | ive equipment | : Refer to section 8. |
| Emerge | ency procedures | : Avoid all eye and skin contact and do not breathe vapour and mist. High slip hazard because of leaking or spilled product. Stop leak if safe to do so. Soak up with absorbent material (for example sand, sawdust, neutral absorbent granule, silica gel). Large quantities: Contain large spillage with sand or earth. |
| 6.1.2. | For emergency responders | |
| Protect | ive equipment | : Refer to section 8. |
| 6.2. | Environmental precautions | |
| | | arge into drains or the environment. Floats on water. Prevent entry to sewers and public waters. Releva spillage to water course or drain. Ensure all national/local regulations are observed. |
| 6.3. | Methods and material for containme | ent and cleaning up |
| Method | ls for cleaning up | : Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Absorb remaining liquid with sand or inert absorbent and remove to safe place. Clean spills promptly. Consult the appropriate authorities about waste disposal. Wear proper protective equipment. |
| 6.4. | Reference to other sections | |
| No add | itional information available | |
| SECT | ION 7: Handling and storage | |
| 7.1. | Precautions for safe handling | |
| Precau | tions for safe handling | : Handle in accordance with good industrial hygiene and safety procedures. Wear recommended personal protective equipment. Avoid all eye and skin contact and do not breathe vapour and mist. |
| 7.2. | Conditions for safe storage, includi | ng any incompatibilities |
| Storage | e condition(s) | : Keep container tightly closed in a cool, well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition. Only use containers approved for especially this product. Protect from sunlight. Protect containers against damage. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose containers to flames, sparks, heat, or other potential ignition sources. |

Safety Data Sheet

| ccording to Regulation (EC) No. 45 | 53/2010 | | |
|---|--------------------|--|--|
| Incompatible products | : Oxidizing agent. | | |
| 7.3. Specific end use(s |) | | |
| No additional information available | | | |
| SECTION 8: Exposure controls/personal protection | | | |
| 8.1. Control parameters | | | |
| Quicksilver Premium Plus TC-W3 Two Cycle Engine Oil | | | |
| Australia TWA (mg/m ³) 5 mg/m ³ Oil Mist | | | |
| 8.2. Exposure controls | | | |
| Appropriate engineering controls : Carry operations in the open/under local exhaust/ventilation or with respiratory protection. | | | |

Personal protective equipment

of any potential exposure. : Gloves. Protective clothing. Protective goggles.

harsh abrasives as skin cleansers.

Hand protection

Eye protection

Skin and body protection

Respiratory protection

SECTION OF DAY

Chemical goggles or face shield with safety glasses. Use splash goggles when eye contact due to splashing is possible. Wear goggles and face shield when handling material at elevated temperatures.

: Avoid contact with skin. For prolonged contact, use nitrile or neoprene gloves or other material resistant to petroleum oils. Wash hands and other exposed areas with mild soap and water before eat, drink or smoke and when leaving work. DO NOT use gasoline, kerosene, solvents, or

Emergency eye wash fountains and safety showers should be available in the immediate vicinity

- Wear suitable protective clothing. Wear long sleeves. Wear heat resistant boots and protective clothing when handling material at elevated temperatures.
- : Work in well ventilated zones or use proper respiratory protection. With correct and proper use, and under normal conditions, breathing protection is not required. An approved organic vapour respirator/supplied air or self-contained breathing apparatus must be used when vapour concentration exceeds applicable exposure limits.

| SECTION 9: Physical and chemical properties | | | |
|---|-----------------------------|--|--|
| 9.1. Information on basic physical and | d chemical properties | | |
| Physical state | : Liquid | | |
| Colour | : green. | | |
| Odour | : Light odour of petroleum. | | |
| Odour threshold | : No data available | | |
| рН | : not applicable | | |
| Melting point | : No data available | | |
| Solidification point | : No data available | | |
| Boiling point | : No data available | | |
| Flash point | : 62 °C (Closed cup) | | |
| Relative evaporation rate (butylacetate=1) | : No data available | | |
| Flammability (solid, gas) | : No data available | | |
| Explosive limits | : No data available | | |
| Vapour pressure | : <1 hPa @ 20°C | | |
| Relative vapour density at 20 °C | : > 1 (air=1) | | |
| Relative density | : 0.87 g/cm ³ | | |
| Density | : 865.38 kg/m³ | | |
| Solubility | : Water: Negligible. | | |
| Log Pow | : No data available | | |
| Log Kow | : No data available | | |
| Self ignition temperature | : No data available | | |
| Decomposition temperature | : No data available | | |
| | | | |

Quicksilver Premium Plus TC-W3 Two Cycle Engine Oil Safety Data Sheet

| /iscosity, kinematic | : 31 cSt (at 20 °C) |
|---|---|
| /iscosity, dynamic | : No data available |
| xplosive properties | : No data available |
| Dxidising properties | : No data available |
| .2. Other information | |
| OC content | : 250 g/l Approximately. |
| SECTION 10: Stability and reactivity | |
| 0.1. Reactivity | |
| lazardous combustion products. Carbon dioxide | e. Carbon monoxide. hydrocarbons. Nitrogen oxides (NOx). Sulfur oxides. May release harmful fumes |
| 0.2. Chemical stability | |
| Stable. | |
| 0.3. Possibility of hazardous reactions | |
| lone known. | |
| 0.4. Conditions to avoid | |
| Keep away from heat/sparks/open flames/hot su | rfaces No smoking. |
| 0.5. Incompatible materials | |
| Strong oxidizing agents. | |
| 0.6. Hazardous decomposition products | |
| arbon monoxide. carbon dioxide (CO2). hydroc | carbons. Nitrogen oxides (NOx). Sulfur oxides. Toxic fumes may be released. |

| 12.3. Bioaccumulative potential | |
| No additional information available | |
| 12.4. Mobility in soil | |
| No additional information available | |
| 12.5. Results of PBT and vPvB assessme | nt |
| No additional information available | |
| 12.6. Other adverse effects | |
| No additional information available | |
| | |
| SECTION 13: Disposal consideration | S |
| 13.1. Waste treatment methods | |
| Regional legislation (waste) | : Consult the appropriate authorities about waste disposal. Dispose of this material and its container to hazardous or special waste collection point. |
| Waste disposal recommendations | : Do not pressurize, cut, weld, braze solder, drill, grind, or expose containers to flames, sparks, heat, or other potential ignition sources. Do not re-use empty containers. Empty containers should be taken for recycle, recovery or waste in accordance with local regulation. Handle empty containers with care because residual vapours are flammable. |
| SECTION 14: Transport information | |
| Not a dangerous good in sense of transport regul | lations |
| | |
| SECTION 15: Regulatory information | |
| 15.1. Safety, health and environmental reg | gulations/legislation specific for the substance or mixture |
| 15.1.1. EU-Regulations | |
| Contains no REACH candidate substance | |
| VOC content | : 250 g/l Approximately. |
| Other regulations, restrictions and prohibition regulations | : Compliance with following regulations: Regulation (EC) 1907/2006 as amended. Regulation (EC) 1272/2008 as amended. Directive 67/548/EEC as amended. Directive 1999/45/EC as amended. |
| 15.1.2. National regulations | |
| Regional legislation | National Code of Practice for the Preparation of Material Safety Data Sheets [NOHSC:2011(2003)]. Adopted National Exposure Standard for Atmospheric Contaminants in the Occupational Environment [NOHSC:1003 (1995)]. |
| 15.2. Chemical safety assessment | |
| No additional information available | |
| | |

| SECTION 16: Other information | |
